

Urbitarate Sagardotegia (Basque)

Sidra Urbitarate

Sidra Urbitarate shows fresh acidity with complex tart and musty flavors. This type of cider is flat, not sparkling and is traditionally served with cod omelette, chorizo con sidra and freshly carved steaks. Belgian Sour Beer and Lambic drinkers will fall in love with this Basque cider.

About the Sidreria:

Artisans of natural cider, Urbitarate is a traditional family owned cider house located in the heart of the Goierri which is surrounded by the Aralar Mountains in the Basque Country. Every part of the production process is done manually producing a product that is natural, unique and extraordinary. This is a must visit in the Basque when craving hand cut steaks.
