

Marinera

Marinera is the name of the new beer from LaCotta®, a product that was created by the harmonious encounter between Montefeltro and the sea, an elegant beer, fragrant and pleasantly bitter taste, with intense notes of iodine releasing great freshness. Marinera is a summary of the wise LaCotta® master brewers who, processing the valuable products from land, barley, oats and hops, mixed with sea salt, have been able to create a truly unique beer from agricultural production, exclusive and very pleasant.

Technical Data
